

WHY DO PEOPLE READ?

When you read you can pretend to travel to other places. You can learn about ideas. You can learn about other people. You can learn about yourself too. People read for many reasons.

People read to learn. They read books to learn new things and to get new ideas

With books you can be whoever you want

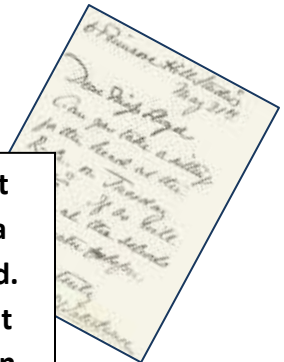

People read to have fun. They read books, magazines and comics.

People read to get information. They read newspapers to find out what is happening in the world. They read street signs to know where they are. They read store things to know prices and what is on sale.

People read to get news. They read a letter from a friend. They find out what the friend has been doing.

THINK ABOUT IT!

Think about what you read every day.

How does reading help you?
